Describe aloud the image below

Sample answer

This is a photo of six or seven firefighters getting out of a red helicopter. They're in an open grassy field, and there is a small forest in the background. The sky is blue, and it seems like a perfect day for flying a helicopter.

It looks like all the firefighters are wearing their full uniforms including a helmet and glasses. A few of them are chatting casually while the others are taking some items out of the chopper.

If I had to guess, I'd say that they're probably getting ready to do some sort of practice drills rather than preparing to fight a real fire because they look quite relaxed and don't seem to be in a hurry.

Speak for at least 30 seconds about the question below

Describe a language you would like to learn.
Why are you interested in this language?

ANSWER

Speak for at least 30 seconds about the question below

Sample answer

Let me tell you about a language I've always wanted to learn, which is French. Obviously, it's spoken in France, but also in many other countries which have been influenced by France including places like Canada and Belgium. I've heard that it's quite a difficult language to learn because the pronunciation is very unique, but I can speak Korean and I enjoyed practicing its pronunciation so I might be ok with French. The reason I would like to learn French is that the fashion industry is huge and there are lots of jobs. I have actually been to France before so I know from experience that a lot of French people can't speak English very well, so that's another good reason to learn their language. The only problem is I'm already thirty years old and I've spent more than fifteen years learning Korean. I don't know if I would ever be able to learn French fluently because it's a difficult language for anyone to learn, especially someone older like me. But it would be really fun to try.

Question: Describe a major decision you have taken in your life. Was it the right decision?

Speak the answer to the question you hear

A really important decision I've made recently is to study abroad, which is the reason I'm here taking this test today. No one from my family has ever had the chance to study abroad before. My parents were actually hoping I'd start training to become a doctor as soon as I graduate. But, in fact, I don't think I want to practice medicine. I really want to study marketing, especially digital marketing, and I want to learn about different cultures. If I study digital marketing in Canada, I can learn how to do business in this new digital era, which is of course very competitive and fast-moving. As for whether it was the right decision, I'm pretty confident it was, and I am really looking forward to broadening my experience and meeting new people in Canada. I'm going to do my best to finish my university course and I will go back to my country with new ideas that will help me get a good job. So, anyway, that's an important decision that I have taken in my life.

Respond to the question in at least 50 words

Sample answer

Reading is probably one the most beneficial activities you can do. The first reason why reading is so beneficial is because it increases your knowledge. Filling your mind with new facts, new information, and new ideas will make you better at conversations as you'll always have something interesting to talk about. Furthermore, it is a well-known fact that reading frequently improves your vocabulary. The more you read the more words you will be exposed to, which will improve your ability to articulate your thoughts more effectively. Overall, reading on a consistent basis will benefit your life in many different ways.
