- Write about the photo

Write one or more sentences that describe the image

ANSWER

Write one or more sentences that describe the image

Sample answer

In this photo you can see a football fan in a large stadium. He is holding the Brazilian national flag over his head and cheering his team. This photo was probably taken during a World Cup match.

ANSWER

Write one or more sentences that describe the image

Sample answer

This is a photograph of a brown dog standing next to a large lake on a beautiful evening. The dog is roughly in the middle of the photo and looks to be staring intently at something in front of him.

- Speak about the photo

[]

Describe aloud the image below

www.detready.com

NEXT

Describe aloud the image below

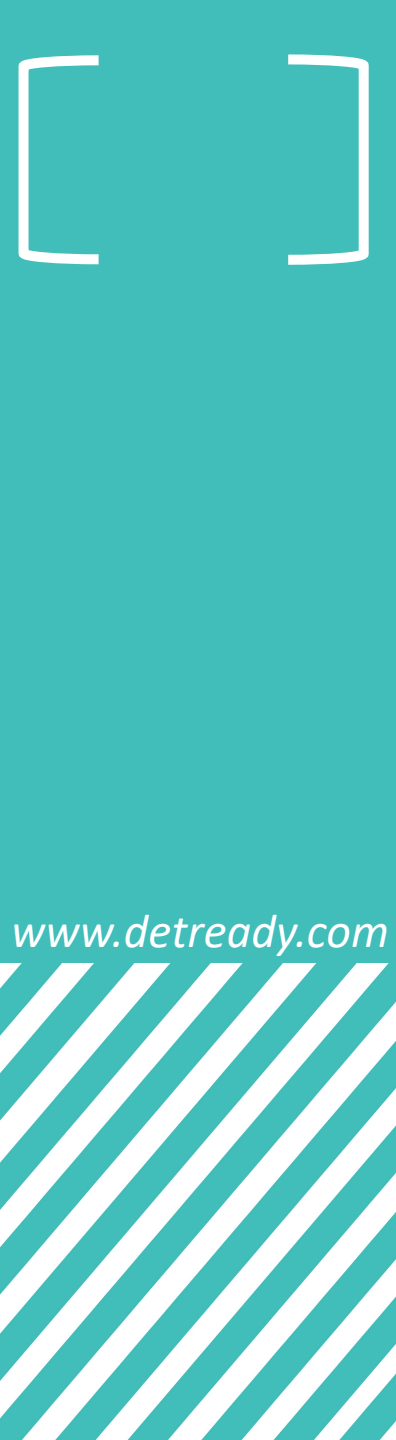

Sample answer

This is an image of someone at a rock concert filming the band with his or her smartphone.

On the phone screen, you can see the lead singer of the band singing and playing his guitar with several bright stage lights shining above him. The background of the photo is quite blurry, but you can just about see all the equipment and musical instruments behind the vocalist. Also, there seems to be another guitarist to the singer's right.

It's hard to say for sure, but if I had to guess, I'd bet that this is a heavy rock concert that is taking place in a small concert hall or even in a pub or a bar.

- Speak about the topic through reading

Speak for at least 30 seconds about the question below

Describe an environmental problem that has occurred in your country.

- What is the cause of the problem
- What effect it has had on your country
- What steps, if any, that have been taken to solve this

NEXT

ANSWER

Speak for at least 30 seconds about the question below

Sample answer

There is one environmental problem that I know a lot about. It's the polluting of rivers and the sea in my country. I believe it's mainly caused by the irresponsible disposal of waste by large factories.

This problem, the pollution, has been brought on by many years of abuse and a lack of respect. For a long time, many factory owners simply just didn't care about the damage they were causing to my country. The toxic waste in the rivers gave off a very strong and disgusting smell. We even were advised by our local government not to swim in the rivers or the sea as it could lead to skin issues or other kinds of health problems.

Moving on to the next question, yes, there have been steps to solve this issue. About 8 or 9 years ago, the government started to take action and passed laws that made it illegal for factory owners to dump large amounts of waste into the rivers and ocean. They started to give out heavy fines to any business that did this. Also, the police were given more power to charge people if they were seen littering on the streets or dumping their trash in the river or on the beach.

To be honest, this problem still exists in my country today, but, overall, it has certainly gotten a lot better.

- Listen and speak

Speak the answer to the question you hear

NEXT

ANSWER

Speak the answer to the question you hear

Question: *Describe a school subject that you did not like in the past, but you like now.*

Speak the answer to the question you hear

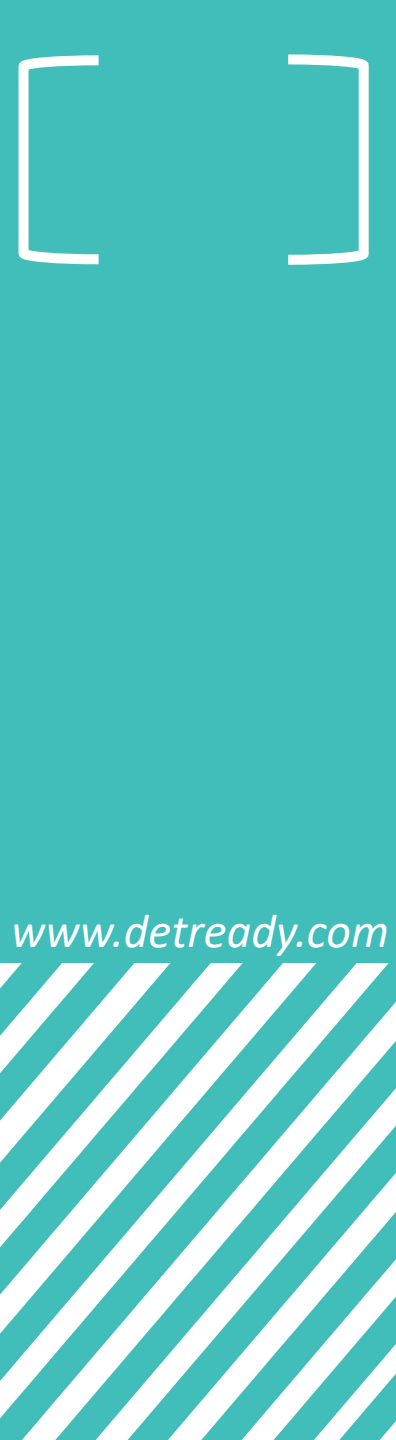

When I was a school student, like everyone else, I had to study a lot of subjects. I enjoyed most of them, but there was one that I really didn't like, and that was history. I think the reason was that I disliked the teaching method of my teacher.

To be completely frank with you, he was a lazy teacher. All he did was copy words and facts from our coursebook to the board and made us write down what he wrote. There was no actual teaching involved. He then would tell us that we had to memorize all the information if we didn't want to receive a low grade for his subject. It was awful!

When I was in my early twenties, I watched a film about Roman history. The film was about how the Romans invented things like bridges, roads, stadiums, and lots of other important things. I really enjoyed the film and realized that history is not as dull as I originally thought. After watching that film, I began reading more about history, watching documentaries, and even going to museums.

I'm completely fascinated with history now.

- write about the topic

Respond to the question in at least 50 words

Some people believe that technology has made us more social. Do you agree or disagree with this statement?

www.detreddy.com

NEXT

Respond to the question in at least 50 words

Sample answer

I agree that the advent of modern technology such as smartphones has improved people's social lives. Firstly, the invention of online social media sites, such as Twitter and Facebook, has dramatically reduced the need to have face-to-face interactions. Through these social apps, people can easily keep in touch and communicate with whoever they want, close friends or total strangers, from anywhere they choose. Secondly, people can share any type of news, information, and photos with their loved ones in an instant keeping a feeling of closeness. To sum up, I firmly believe that overall sociability has advanced enormously thanks to technology.
